Step 4: Take the Heartcode online course by selecting Start next to that component

The screenshot shows the American Heart Association eLearning platform. At the top left is the logo and the text "American Heart Association eLearning". To the right, there is a user profile for "Randi Gordon" and a language selector set to "EN". Below the header is a navigation menu with "Courses", "About eLearning", "Support", and "Get Involved". The main content area is blurred, but a course card is visible. Below the course card, there is a "Topics" section with "Training Center Information" selected. A table lists the course "HeartCode® BLS Online for International" with a "Not Started" status and a "Start" button. A red arrow points to the "Start" button. A note at the bottom of the table says: "Click View Detail to claim CE or get the completion certificate for the specific component."

Note – you can view your Training Center/Site at any time by selecting **Training Center Information**

Step 5: Take your skills session with the Training Center/Site

Note – after you pass the skills session and the instructor marks you as **Completed**, return to your course on **eLearning.Heart.org** to access your eCard.

A screenshot of the American Heart Association eLearning website. The page shows a notification at the top: "eCard automatically claimed after course completion." Below this, there is a blurred course card for "International Test Bundle". A red arrow points to a red "eCard" button on the right side of the course card. Below the course card, the "Topics" section is visible, showing a list of topics with "View Details >" and "Completed" status indicators. The bottom of the page shows a partially visible "View eCard >" button and an "eCard Auto-Claimed" status indicator.
