

# Certificate Course in Management of Hypertension (CCMH) Online

The American Heart Association and the Public Health Foundation of India have partnered to develop the Certificate Course in Management of Hypertension (CCMH) Online.

CCMH Online is adapted from the Certificate Course in Management of Hypertension, a PHFI in-person teaching program.

CCMH Online is an innovative solution that aims to increase competence and confidence in the prevention, diagnosis and management of hypertension, and help to improve hypertension control rates, especially in resource-limited settings.

## COURSE HIGHLIGHTS

The self-paced course is based on the latest Hypertension guidelines and can be completed within 1 day (8-10 hours).

## CORE TOPICS

-  Hypertension screening
-  Non-pharmacological management
-  Pharmacotherapy approaches
-  Complications of hypertension
-  Special or difficult-to-treat populations within the context of low- and middle-income healthcare systems

**\*Self-paced (8-10 hours to complete) \* Online / interactive \* Certificate of completion**
